

30kW Modular Battery Cabinet for Edge Computing

Modular Configurations: 30kW, 60kW, 90kW inverter power paired with 101kWh to 187kWh battery storage.
Parallelable Solutions: Parallel up to 3 cabinets together per install for custom solutions.

Highly efficient, easy-to-deploy 30kW, 480V 3-phase UPS that brings best-in-class power protection and low total cost of ownership to edge, small and medium data centers, as well as to critical ...

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.

Designed with solar installers to simplify installation and reduce cost, PSP allows up to 30 kWh of reliable battery storage with options to mount Sol-Ark 15K and Luxpower 12K directly on the cabinet.

An integrated, modular energy storage solution featuring lithium iron phosphate batteries, BMS, PCS, EMS, and fire protection. Designed to reduce electricity costs for commercial and industrial ...

The 30kW & 500kW unit could be used to work in 3P3W system independently or 3P4W system with external transformer. Without grid connected, it will be the micro-grid or off-grid system with existing ...

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO₄ battery bank to provide safe, efficient, and reliable power storage.

AlphaESS is able to provide outdoor battery cabinet solutions that are stable and flexible for the requirements of all our customer's battery and energy storage demands.

Easy Expansion: As energy needs grow, additional battery modules can be added without replacing the entire system, making it a cost-effective solution for expanding energy storage capacity.

House everything you need to run your business or edge computing location in a neat, enclosed cabinet. EdgeRacks eliminate the need for messy IT or networking closets.
