

380v high power solar water pump 350kW

350kW solar pump inverter is a key equipment designed for high-power solar pump system, responsible for converting the direct current generated by photovoltaic modules into ...

The Solar Seeker SP4 Series is a high-performance solar inverter specifically designed to power large-capacity water pumps in demanding environments. It combines cutting-edge MPPT technology and ...

These solar pump inverters are specially designed for super Large field irrigation, and city water supply pump systems, using hybrid design with solar and utility /DG Energy online complementation by AC ...

The SolaX X3-GRAND HV is a 350kW ground-mounted string inverter delivering 99% efficiency with 6 MPPT trackers for optimal energy harvest. It features Type II SPD protection, AFCI (optional), and ...

Hybrid Solar Pump Inverter For Irrigation High Power Capacity: Supports large-scale operations with pump capacities ranging from 160kW to 350kW, ideal for industrial and agricultural water pumping ...

Inomax solar pump inverter is an intelligent inverters, with AUTO MPPT function, customer just connect solar panels and solar pumps, the inverter will start and stop automatically.

This supplier mainly exports to Côte d'Ivoire, the United States, and Romania, with a high positive review rate of 96.5%. They are both a manufacturer and trader.

We have always put our customers' needs first, focusing on the quality of our solar pump inverters and providing customer service that's second to none. Twelve years of hard work have paid off, with a ...

Seamlessly switches between 380V AC grid, solar DC, or battery power, ensuring 24/7 operation even during blackouts.

The stainless steel construction excels in harsh environments, while the high-efficiency multi-stage centrifugal impeller runs at 2850RPM or 4000RPM for optimal output. Integrated with advanced ...

380v high power solar water pump 350kW
