

5G communication base station installation in Bahrain

Is STC Bahrain ready for 5G?

stc Bahrain has taken an early and decisive lead in 5G rollout in Bahrain, having already covered half the nation of 1.64 million with the latest wireless technology. stc Bahrain's CEO Nezar Banabeela explains how 5G, transformation into an IDSP, and digital-first service models are keeping the telco a step ahead of OTT competitors.

Does Bahrain have a 5G network?

stc Bahrain has taken an early and decisive lead in 5G rollout, having already covered half the nation of 1.64 million with the latest wireless technology.

Why did Huawei become a 5G operator in Bahrain?

In 2019, we adopted the latest 5G core technologies, spectrum sharing between LTE and 5G, the latest spectrum management technologies, and agile transport layer technologies using Huawei's solutions. We thus became the first operator in Bahrain to commercially provide a 5G network to its customers.

Which mobile wallet is best for B2B customers in Bahrain?

In addition to a comprehensive suite of ICT products targeting the B2B segment, we've launched stc Pay, a fully integrated mobile wallet and the only wallet in the country accessible to the unbanked population. Today stc Pay is the most popular mobile wallet in Bahrain, with the largest customer base and the largest merchant network.
