

Are fogstar batteries any good

When charging your Fogstar Drift leisure battery by Solar, existing 12V MPPT chargers can charge Wet, Gel and AGM batteries, and will therefore charge Fogstar Drift just as efficiently, in ...

They appear legit, using EVE cells and JBD BMS, both good. For that particular battery, they use a 250A BMS, so that is all you can pull. For a big inverter or running an AC, that isn't ...

In this Fogstar batteries review, we'll explore the specifications, compatibility, warranty offerings, and real-world user experiences of Fogstar batteries in residential solar PV systems.

Reviewers overwhelmingly had a great experience with this company. ...

I'm looking to change my leisure batteries to Lithium I've contacted a few installers and some seem to be recommending Fogstar batteries. These ...

This is our Fogstar Battery Review. We'll give you the full lowdown on this battery - how good are the Lithium cells, how is its power performance over time, how ...

Fogstar are a company that I have complete trust in to supply me with genuine 18650 batteries for my vapes and I wouldn't hesitate in recommending them to others.

It strikes me that the battery options seem to be way overpriced for the capacity compared to the Fogstar 15kwh for £2500 which ends up inflating the overall price.

We're an electric only house, and use a rather staggering amount of energy as we have two EVs. We average 60 - 70 kWh / day. I feel we'd get a lot of mileage out of some large battery storage, and so I ...

Fogstar Drift Gen2 brings major upgrades to the lithium leisure battery market. Improved monitoring, stronger performance and seamless ...
