

Can I open the locker by taking a photo

What is the best way to open a locker?

The best way to open a locker depends on the type of lock it has. The most common locks include traditional combination locks, keyed locks, resettable combination locks, and electronic keypad lock 2 s, each with its own unlocking method.

How do you open a locker if it won't open?

Open the lock. Pull the lock open and out of the hole, or pull the latch or handle, if there is one. Otherwise, tug on the knob to open the locker. If your locker just won't open, try it again with the last number being five before or after your "official" last number.

How do you lock a locker if you don't have a key?

Many lockers come with a backup key. Schools, gyms, and workplaces often have master keys. If the locker is personal property, using a lock-picking kit may help. For high-security locks, a professional locksmith can assist. If no other option exists, use bolt cutters (only if you own the lock).

How do you open a school locker?

See Step 1 to begin learning how to open 99% of all standard school lockers. (Note: some locks may open differently) Spin the dial at least three times to the right (clockwise), all the way around. This clears the lock of any previous numbers. If at any point in putting in your combination you mess up, do this again to start over.
