Will Skyview become Canada's largest battery energy storage facility?

Colin Parkin, President of e-STORAGE, said: "The Skyview project, our largest SolBank delivery contract to date, is set to become one of Canada's largest battery energy storage facilities upon completion.

Is Canadian Solar E-storage delivering Nova Scotia Power's flagship energy storage projects?

"This is an unprecedented milestone for the local communities and for renewable energy as a whole in Nova Scotia," said Andrew Moles, general manager of PCL's solar division. "We look forward to working with Canadian Solar's e-STORAGE on this exciting new venture to deliver Nova Scotia Power's flagship energy storage projects."

Where can I find more information about Canadian Solar?

For additional information about the Company, follow Canadian Solar on LinkedIn or visit e-STORAGE is a subsidiary of Canadian Solar and a leading company specializing in the design, manufacturing, and integration of battery energy storage systems for utility-scale applications.

Will PCL Construction support Nova Scotia's first grid-scale battery energy storage system?

TORONTO, Ontario (July 25, 2024) - PCL Construction is pleased to announce it will support the engineering, procurement and construction (EPC) works for Nova Scotia's first grid-scale battery energy storage system (BESS), which will be built by Canadian Solar's e-STORAGE.

E-Storage, Canadian Solar's energy storage subsidiary, has been contracted to provide engineering, procurement, and construction (EPC) services on the 411MW/1,858MWh Skyview 2 ...

Construction will be completed by the end of 2026, and the first site expected to be operational in 2025. e-STORAGE will provide comprehensive engineering, procurement, and ...

BESS is the fastest growing energy storage technology in Canada and is also the dominant storage technology in terms of capacity and number of sites. All but four projects proposed ...

The agreements cover the supply and commissioning of a 160 MW AC/806 MWh DC Battery Energy Storage System (BESS) in California and a 200 MW AC/998 MWh DC BESS in ...

As of Sept. 30, 2025, Canadian Solar had a Solar Project Development Pipeline totaling 5,600 megawatt-peak and a Battery Energy Storage Project Development Pipeline of 24,332 MWh in ...

Canadian Solar's e-STORAGE, part of the company's subsidiary CSI Solar, has secured a contract from Nova Scotia Power to develop flagship energy storage projects totaling 150 MW, in ...

TORONTO, Ontario (July 25, 2024) - PCL Construction is pleased to announce it will support the engineering, procurement and construction (EPC) works for Nova Scotia's first grid-scale battery ...

# Canadian solar base station energy storage construction

The 411 MW / 1.858 GWh Skyview 2 battery energy storage system (BESS) project developed by Potentia Renewables in Canada is underway, with a groundbreaking ceremony taking ...
