

# Direct Sales of Temperature and Humidity Controlled Cabinet Units for Island Users

What is a temperature and humidity controlled cabinet?

The temperature and humidity controlled cabinet range supplied by Blundell is designed to ensure that a constant temperature is maintained, and the relative humidity is kept between 1% - 5%. Dry storage cabinets are required for electronic, medical and engineering applications.

What is a dry cabinet?

Desiccant Dry Cabinets, Baking Dry Cabinets and Nitrogen Cabinets are specially designed Humidity Controlled Cabinets that regulate humidity levels and maintaining an ultra-low moisture environment.

What is a TRH humiditherm cabinet?

The TRH Humiditherm Cabinet series, manufactured by Thermoline, offers accurate and precise temperature and humidity control. The range is available in four standard capacities, from the economical 300L to our XL 1350L. And if your needs are even more specific, we can customise your cabinet to meet your unique applications.

How are humidity controlled storage cabinets and drying cabinets related?

Humidity controlled storage cabinet systems and drying cabinets are related to one another due to the rate at which the humidity level can be controlled. Desiccator cabinets, or desiccant dry boxes, are appliances which have a drying substance in them that acts to both remove water and protect the items from water in the ambient air.
