

The cornerstone was laid today for the largest battery park complex in continental Europe, in Kiisa, Estonia, by Baltic Storage Platform. This is an important step to ensure the synchronisation of the ...

The largest battery park in continental Europe was opened in Kiisa, Harju County, on Tuesday, capable of serving 90,000 households.

The battery energy storage system at Kiisa will be completed this autumn, while the system at Aruküla will be completed in spring 2026. These battery parks will play a key role in the ...

The Baltic Storage Platform (BSP) - a joint venture between Baltics leading renewable energy developer Evecon, French independent solar power producer Corsica Sole, and sustainable ...

The Raba Solar Park in Estonia is set to receive a 21 MW / 42 MWh battery energy storage system, making it one of the largest co-located solar and storage installations in the Baltics.

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 MWh, ...

The EUR100M project, led by Baltic Storage Platform, will deliver some of Europe's largest battery storage complexes with a combined capacity of 200 MW and a total storage capacity of 400 MWh, putting ...

Summary: Estonia's power plant energy storage initiatives are reshaping the country's renewable energy landscape. This article explores the project's goals, technological innovations, and how it addresses ...

The project is designed to help Estonia, Latvia and Lithuania synchronise their electricity grids with Europe by 2025, breaking away from the historical dependency on the Russian grid.
