

Huanghe solar inverter

Where is Huanghe hydropower development located?

Huanghe Hydropower Development built in Gonghe County, Qinghai, the country's largest PV farm at 2.2 gigawatt. Huawei inverters and other technologies play a central role in the installation.

Why did Huanghe start a solar PV project in Talatan?

When first planning for the PV project in Talatan, Huanghe sought ways to deploy PV power stations in a way that would benefit both the natural ecosystem and the PV industry. To absorb the impact of desert wind and sand on solar PV panels, Huanghe sowed pasture seeds around the PV park.

Who owns Huanghe hydropower?

The State Grid Corp. was responsible for the ultra high-voltage power line, valued at USD 3.18 billion, according to earlier announcements. The project includes two converter stations of 8 GW in total. Huanghe Hydropower, controlled by State Power Investment Corp., is based in Qinghai's capital Xining.

When did string inverters become a trend in the PV industry?

In 2013, Huawei and Huanghe deployed string inverters in the Golmud PV power station in Qinghai, marking the first time string inverters were installed in a large-scale, ground-mounted PV plant. This broke the dominance of central inverters and spurred new development in the PV industry.

Chinese inverter manufacturer Sungrow, which supplied the inverters, said that the 2.2 GW solar plant was built in five phases. It involved an investment of RMB15.04 billion (\$2.2 billion)...

Ten years ago, China's inverter market was dominated by central inverters. In 2013, Huawei and Huanghe deployed string inverters in the Golmud PV power station in Qinghai, marking ...

Huanghe Solar PV Park is a ground-mounted solar project. The project got commissioned in September 2020. Sungrow Power Supply supplied its SG250HX inverters to the project site. For more details on ...

It added it installed 120 GW in inverters by the end of June. The State Grid Corp. was responsible for the ultra high-voltage power line, valued at USD 3.18 billion, according to earlier ...

Nevertheless, in 2013, Huawei joined pressures with Huanghe to launch the country's very first large-scale ground-mounted PV plant utilizing string inverters in Qinghai.
