

# Hungary's mobile energy storage container with ultra-large capacity

Where is Hungary's largest battery energy storage system located?

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Székesfehérvár, located close to Budapest. The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

How much power does met have in Hungary?

The new facility boasts a total power output of 40 MW and a storage capacity of 80 MWh. This project significantly expands MET Group's energy storage portfolio in Hungary. It joins a smaller 4 MW / 8 MWh demonstrator BESS, which utilizes Tesla Megapack 2 batteries and was installed at the same site in 2022.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backups as it charts its green energy path. In neighbouring Bulgaria, a massive 124MW/496MWh battery energy storage system went live in Lovech earlier this year.

/BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today. MET Group put into ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal ...

Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

Hungary has taken a significant step forward in its energy transition with the inauguration of its largest standalone battery energy storage system (BESS).

Uniper powers Hungary's energy transition with two new solar projects Peter Kaderj&#225;k, President of the Hungarian Battery Association said: "We must strive by all possible means to exploit ...

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

It seamlessly integrates with solar and other renewable energy sources, supporting Hungary's transition to clean energy. The pre-integrated skid design significantly reduces on-site ...

## Hungary's mobile energy storage container with ultra-large capacity

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a ...

Hungary's largest standalone battery energy storage system has been inaugurated in Székesfehérvár. With a 40 MW output and 80 MWh capacity, the new unit by MET Group marks a ...

An 8 megawatt (MW) battery energy storage facility with a nominal capacity of 16 megawatt hours (MWh), which will provide almost one fifth of Hungary's total capacity, was ...
