

# Longi Solar Power Station in Vietnam

With nearly 2 million solar panels, 500 kV / 1,200 MVA transformer station and 22.2 km of 500 kV line, this is so far the largest solar power plant in Southeast Asia.

In a significant development marking the end of 2020, two large-scale floating solar projects in Vietnam were commissioned in December. They were the 35 MWp Ho Tam Bo floating solar power plant and the 35 MWp ...

LONGi has been supplying to several floating solar power projects across the world and we are proud to be associated with the TOJI Group in setting up their first floating solar plant in Vietnam,&quot; said ...

This project involved the installation of 11.4 MWp of solar PV rooftop system, utilizing LONGi advanced Hi-MO X6 modules. Designed to perform with excellence, the system is expected to generate...

Empower every inch of our building to generate electricity. LONGi Hi ROOF S .

China-based PV module manufacturer, LONGi supplied modules for a combined 23 MW rooftop solar project in H?ng Y&#234;n Province, Vietnam, installed in two phases by Solar Electric Vietnam. The first ...

The project, completed in September, spans nine of Tan De's factories and uses LONGi's Hi-MO X6 modules with anti-dust technology. The solar arrays are expected to generate 12,603 MWh annually, ...

LONGi Solar, a China-based solar technology company, has supplied its Hi-MO 4 Series modules to Southeast Asia's largest solar plant - Phase I of the Xuan Thien Ea Sup Project in Dak Lak,...

Longi and DLG Solar Ninh Thuan Solar PV Park is a 50MW solar PV power project. It is located in Khanh Hoa, Vietnam. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project ...

(Yicai) June 5 -- Longi Green Energy Technology said the Chinese solar panel giant has not closed its plants in Malaysia and Vietnam nor halted operations at the factories, as rumored, but has modified their production ...
