

North america home solar cabinet system

What is a solar energy management cabinet?

In honor of the Summer Solstice, the day of the year with the most daily sunlight, a distributed energy start-up company is releasing a residential integrated energy management cabinet system that stores solar energy on its 5 kWh battery systems to provide up to 30 kWh of back-up power in the event of a power outage.

How does a solar cabinet work?

The residential cabinet can be connected with an on-site solar array, which the company does not provide, and uses the Lunar Bridge, an electric panel monitoring system that toggles between the grid and off-grid battery power in 30 milliseconds.

Where can I Configure my own Solar System?

Interested customers can configure their own system on Lunar Energy's website. Founded in 2020, Lunar Energy is based in Mountain View, Calif., and has raised about \$300 million in equity funding to date.
