

Ottawa Power Generation Container

Energy Ottawa operates two "run-of-the-river" hydroelectric generating stations on the Ottawa River, less than 1.5 km from Canada's Parliament in Ottawa's core. It produces more than 125,000-megawatt ...

Getting Started: The Generation Stage
OH The Places We'll Go: The Transmission Stage
Preparing For Landing: The Distribution Stage
The End of The Journey: Your Home Or Business
In order for the journey to begin, electricity must first be generated. It is reported that Canada's electricity generation capacity will need to double or triple to meet future electrification demands. Ontario's supply mix includes nuclear power, which accounts for a significant portion of the province's energy production at 50.7 per cent, followed ...
