

Pack battery processing outsourcing

Outsourcing the manufacturing of your electronic device's power solution or battery pack requires a trusted partner that can guide you through every step of the process. With over 40 years of ...

From mechanical and electrical design to BMS integration, as well as support through regulatory compliance and the transition to final assembly, custom battery manufacturers provide a ...

Inventus Power specializes in highly engineered custom battery solutions that are designed, tested and manufactured for safety, reliability, and optimal performance.

Build high-quality lithium battery packs with automated production equipment, complete process development, on-site installation, and lifetime technical support.

EV makers face shifting demand and rising risks, making battery sourcing strategy crucial as OEMs balance integration, partnerships, and outsourcing through 2030.

Learn more about ATC's approach to EV battery remanufacturing, reusing, and recycling for a sustainable future; the best in aftermarket solutions.

We develop full battery pack and production facility layouts, RFQs, simulations, and throughput tools for new and expanding operations--delivering results on time and under budget.

Our experts collaborate with you to finalize the mechanical, electrical, and safety design of your battery pack. We optimize configuration, cell selection, and protection circuits for performance and longevity.

With over 15 years of experience in battery manufacturing, we have established ourselves as experts in battery assembly solutions, especially module and pack. In our portfolio you will find solutions for all ...

From mechanical and electrical design to BMS integration and regulatory compliance, custom pack manufacturers support mid-volume production with engineering-led services.
