

Why is Penang implementing floating solar projects?

The Penang government is assessing several strategic locations, including dams and coastal water bodies, to implement floating solar projects as part of efforts to strengthen its Renewable Energy (RE) sources. -- NSTP/GHAZALI KORI Get breaking news fast -- follow us on WhatsApp and Telegram.

Should solar panels be installed on water surfaces in Penang?

He said that land-based solar farms were not ideal for Penang due to the scarcity and high value of available land. Therefore, he said, installing solar panels on water surfaces was seen as a more practical alternative. "Floating solar is a real possibility for Penang because we are surrounded by water.
