

Photovoltaic special-shaped panels

As one of the leading custom solar panel manufacturers, Findy Solar supplies various customized solar panels in different sizes, shapes and outputs. Know more here about how to make a solar panel.

Use our Custom Solar Panel Design Tool to see our standard sizing options. We can customize panel shape and design to meet your specific requirements.

Custom solar panels are in high demand among homeowners with unique architectural designs. If you've got a house with a curved roofline, non-standard windows, or other unconventional ...

Custom solar panels are very popular for off-grid applications to accommodate unique sizes, shapes, voltages and power output for specific applications. Our custom solar panels provide flexibility, ...

We support any panel geometry you can imagine. From simple rectangles to triangles, circles, hexagons or truly free-form silhouettes, our production lines can produce it.

Discover the finest quality and reliable panels that run on photovoltaic, monocrystalline silicon or polycrystalline silicon cells, engineered to deliver consistent durability and superior performance.

Compared with the traditional rectangular design, the circular design can maximize the cell coverage area and improve the photoelectric conversion efficiency. Round solar cells are made by cutting ...

Custom size and shape solar panels Flexible manufacturing line enables us to offer wide range of customization options. Where combining those options together allows us to achieve endless ...

In this comprehensive exploration of solar panel shapes, we embark on a journey that delves into the significance of various forms, their impact on energy efficiency, and their ability to harmonize with the ...

Yes, it is possible to make a solar panel in a custom shape. At Voltaic, we manufacture custom and standard small solar panels and while most are rectangular, we have experience designing and ...
