

Power Generation Wind Blade Listed Companies

What is the wind turbine blade manufacturing industry?

The wind turbine blade manufacturing industry encompasses companies that produce components crucial for transforming wind energy into electricity. These businesses, which range from multinational corporations to more localized enterprises, construct, install, and service wind turbine blades for use in both onshore and offshore settings.

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Who are the major players in the wind energy industry?

Major Players' Characteristics: The competitive landscape features significant players that bring different strengths and technological expertise. Companies such as Vestas Wind Systems and Envision Group are recognized for their innovative solutions and ability to integrate advanced technologies into their wind energy projects.

This report lists the top China Wind Energy companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be ...

As wind power surges toward a projected USD 267.54 billion market value by 2030, industry decision-makers need clear insights into the competitive landscape. This article profiles 10 leading wind ...

The wind turbine blade market is poised for sustained growth, driven by the global green energy push and continued technological advancements.

Vestas SGREGE Vernova Enercon Goldwind Envision Mingyang Nordex Windenergy0. Sewind Founded: 1985 Location: Rostock, Germany Nordex (Nordex SE) provides cost-efficient and high-yield wind turbines. The acquisition of Acciona Windpower made Nordex a major force to reckon with in the wind industry. The company has installed over 51 GW of wind turbines as of 2024. As one of the world's largest wind turbine manufacturers, the Nordex ...
