What Is A Utility Control Center?What Is A Control Room in A Power Station?What Is The Control Room of A Nuclear Reactor?What Should Be in A Control room?A control room in a power station is the central point of control and monitoring for the facility. It contains equipment, consoles, monitors, and other furniture to enable personnel to manage and monitor the site's operations. The pieces of furniture need to be durable and ergonomic so that staff can work comfortably for long periods of time. Sarav...See more on saravalindustries
