

Seaside outdoor solar panel solar integrated machine

What can a solar system do for a liveaboard boat?

Maxbo's solar kits can power everything from lighting and appliances to entertainment systems, making life on the water more comfortable and enjoyable. By using solar energy, liveaboard boaters can achieve greater energy independence and reduce their reliance on shore power.

What are solar kits for marine applications?

For individuals who live aboard boats or houseboats, solar kits for marine applications offer a cost-effective and sustainable way to meet everyday energy needs. Maxbo's solar kits can power everything from lighting and appliances to entertainment systems, making life on the water more comfortable and enjoyable.

Does swimsol offer floating solar panels?

Trusted by major resort brands. In 2014, Swimsol launched the world's first floating solar solution for the sea. SolarSea(TM) is a commercial renewable energy product that creates space for solar panels on the sea surface. Contact Us for a floating solar system that suits your needs.

Does a marine solar system need energy storage?

Energy storage is a vital component of any marine solar system. Maxbo's solar kits for marine applications come with integrated battery storage solutions, allowing you to store excess energy produced during the day for use at night or during cloudy periods.
