What is the difference between solar rental and solar PA?

system is performing optimally. Solar rentals and solar PA's: What is the difference? With a solar rental agreement, you agree to pay a fixed monthly rental fee which is calculated using the estimated amount of the electricity the system will produce, in exchange for the right to use and enjoy the benefits of the solar power s

How does a solar lease work?

In a solar lease, a company will install a solar system on your home and then charge you a monthly rate that replaces your utility electricity bill. Solar lease agreements are typically for 20 or 25 years and include an escalator that increases the monthly payment each year (more on that below).

How much does a solar system cost?

But in just the last 12 years, the cost of an average solar system has cut in half, from \$40,000 to \$20,000, according to the Solar Energy Industries Association (SEIA). Coupled with the 30% federal tax credit, that's made buying solar panels much more affordable and the lifetime savings of ownership much greater.
