

Supercomputing 2024

This week industry experts have been gathering in Atlanta for Supercomputing 2024, a major international conference that showcases leading breakthrough ...

Join the high performance computing community at Supercomputing 2024 in Atlanta, GA from November 17 to 22, 2024. Connect with DOE offices and learn about the latest developments ...

More commonly known as Supercomputing, SC 2024 will draw thousands of scientists, engineers, researchers, and industry leaders to showcase the latest advancements in supercomputing ...

Analyst Take: SuperComputing 2024 (SC24) showcased the rapid evolution of HPC and AI technology. The event highlighted breakthroughs in ...

Established in 1988, SC is the International Conference for High Performance Computing, Networking, Storage, and Analysis. Sponsored by ACM, SIGHPC, IEEE-CS, and TCHPC.

The International Conference for High Performance Computing, Networking, Storage, and Analysis, will be held from November 17 - 22, 2024. The theme for 2024 is: hpc creates.

NVIDIA showcases its latest innovations in AI and supercomputing at SC24 in Atlanta, including CUDA-X libraries, Omniverse Blueprint, CUDA-Q, ...

In this tutorial, we will introduce SYCL and provide programmers with a solid foundation they can build on to gain mastery of this language.

SC is an unparalleled mix of thousands of scientists, engineers, researchers, educators, programmers, and developers and who intermingle to learn, share, and grow. Atlanta is the place to ...
