What is the difference between a solar panel brand and a company?

Before we dive into the top brands, it's important to understand the difference between a solar panel brand and a solar company: **Solar Panel Brand:** These are manufacturers that design and produce solar panels (e.g., Maxeon, Canadian Solar, JinkoSolar). **Solar Company:** These businesses sell, install, and maintain solar systems.

How long do solar panels last?

Choosing the right solar panel brand is one of the most critical decisions you'll make in your solar journey. With solar panels designed to last 25-30 years, selecting a reliable manufacturer with proven performance can mean the difference between decades of worry-free energy production and costly repairs or replacements.

How are solar panels ranked?

To rank our solar panels, we primarily looked at power output per square foot. This metric is the best way to directly compare solar panels side-by-side since they can vary so much in size. Solar panels are like most other electronic equipment: They operate most efficiently in cool temperatures (ideally around 25°C or 77°F).
