Can wind farms really produce enough power to replace fossil fuels? The UK government's British energy security strategy sets ambitions for 50GW of offshore wind power generation - enough energy ...

In Great Britain, gas-fired power stations contribute a minimal portion to power generation, underscoring the potential for wind energy. Since 2010, most new wind power ...

Using an Original Institutional Economics (OIE) approach to examine real world developments, we argue that the global wind energy industry is increasingly volatile and ...
