Provides an overview of Yemen, including key dates and facts about this Middle Eastern country.

Yemen's ruling leadership council has named a new cabinet following deadly clashes in the south and the dissolution of a separatist group.

Yemen is threatening to fracture even further, exposing a growing rift between Middle East powers Saudi Arabia and the United Arab Emirates.

According to the World Bank, Yemen has the lowest level of electricity connection in the Middle East, with only 40% of the population having access to electricity. Rural areas are particularly badly affected. Industrial concerns, hospitals and hotels have their own back-up generators. To address these shortages, a 340-MW gas-fired power plant is under construction-and close to completion-at Marib. Further expansion to the facility, which will add an additional 400 MW of output, is planned. Yemen ha...
